*Journal Subscriptions: An Insight Education subscription to Wiley or JSTOR might be appropriate – however, these are far more useful for more specific/technical articles, rather than the kinds of books on introductory reading lists.*

*For students who are unable/unwilling to buy multiple books for preparatory reading, it might also make sense to suggest handbooks, since they contain multiple authors and perspectives but you only have to buy one text. For example:*

The Oxford Handbook of Archaeological Theory

The Oxford Handbook of Classics in Contemporary Political Theory
